

WE HELP YOU TO GROW YOUR CAREER WITH

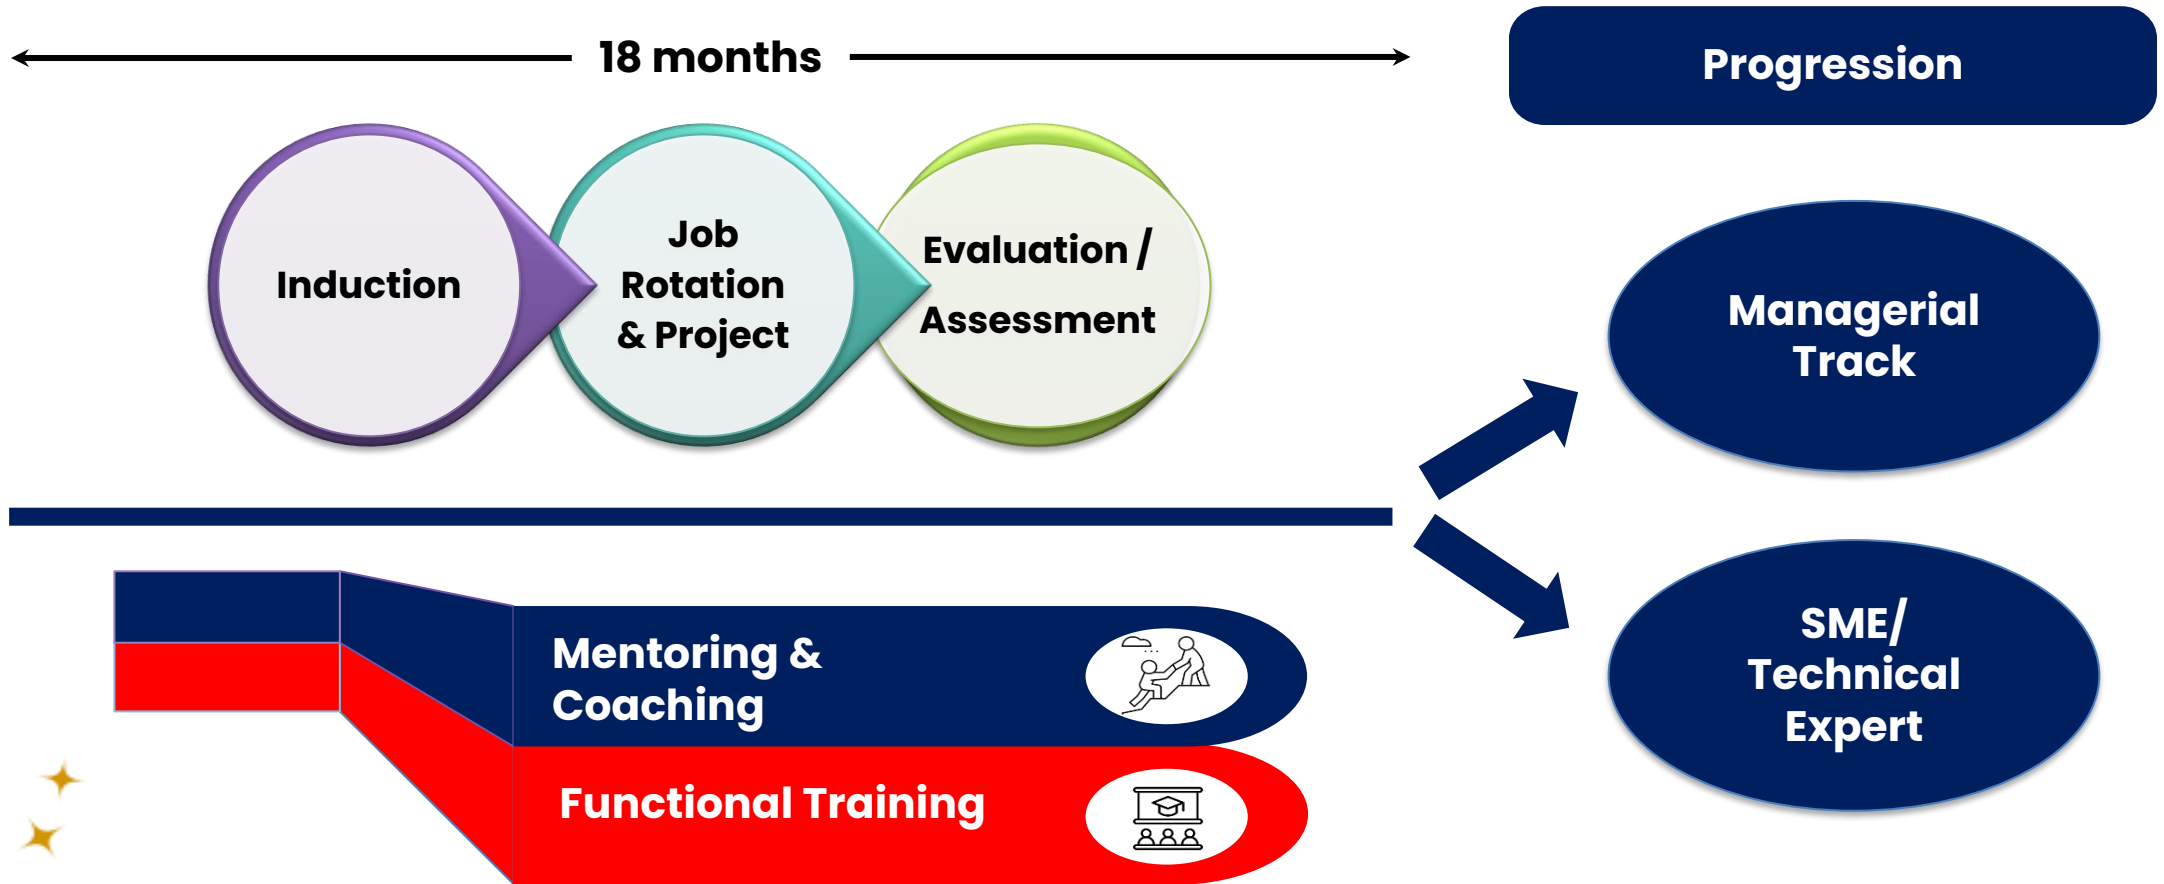

GDP is a structured program tailored to groom fresh graduates for leadership and SME roles within the organization. This 18-month program involves rotation through different processes or roles with the guidance from SME, engineers and managers.

Formal training sessions and opportunities to work on projects or assignments that provide exposure to various aspects of the company's operations will be given to the graduates as part of the process to mold them as the future leaders of the Carsem.
